Disclaimer

- Be sure to look closely at any image of your dancer to ensure they are the FOCUS of the image BEFORE purchasing.
 - TLDR:
 - In a dynamic dance ensemble, with motion, lighting variations across the stage, and MY interest in focusing at different depths to capture each dancer, sometimes not all dancers are the intent of the image – other than for context, compositional balance and framing.
 - Some images I have kept, despite lacking certain high qualities because they tell a story, show the action and capture the mood. Maybe these aren't the best to print, or even purchase.... Caveat emptor!
- HELP!
 - I recognize that using this gallery to select and order images can sometimes be a challenge. I just want you to be happy having photos of your dancer(s). Please contact me with any questions.
